Professional Summary

Full Stack Developer skilled in React.js, Next.js, Node.js, Express.js, and MongoDB. Experienced in building end-to-end web applications with secure authentication, real-time features, and responsive design. Passionate about clean code and delivering high-quality user experiences.

Skills

Front-end : React.js, Next.js, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, Bootstrap, DaisyUI, Material UI, TanStack Query, Redux Toolkit

Back-end : Node.js, Express.js, MongoDB, PostgreSQL, Prisma, Zod, BetterAuth, Firebase, JWT

Tools : Git, GitHub, Figma, Netlify, Vercel, Surge

Soft Skills : Communication, Time Management, Teamwork, Adaptability

Projects

EduBridge

[Live link](#) | [GitHub Client](#) | [GitHub Server](#)

Overview: A full-stack online tutoring platform connecting students with expert tutors through secure authentication, real-time booking, and Stripe payment integration. Features role-based dashboards for Students, Tutors, and Admins.

- Role-based access control with three user roles (Student, Tutor, Admin) and protected routes.
- Stripe payment integration for secure session booking with real-time confirmation.
- RESTful API with Express.js and Prisma ORM for efficient data operations.

Technologies: TypeScript, Next.js, Node.js, Express.js, PostgreSQL, Prisma, Better Auth, Stripe, Tailwind CSS, Framer Motion

MindSpace

[Live link](#) | [Github Client](#) | [Github Server](#)

Overview: A full-stack AI-powered mental health platform where users can find and book licensed therapists, track daily mood, write AI-analyzed journals, and receive personalized wellness insights through Google Gemini AI integration.

- Built role-based dashboards for User, Therapist, and Admin with real-time Socket.io notifications.
- Implemented 4 AI features using Gemini API with structured JSON outputs and graceful fallback.
- Integrated BullMQ email queue, Redis caching, Winston logging, and Sentry error tracking.

Technologies: Next.js, Node.js, Express.js, TypeScript, PostgreSQL, Prisma, Gemini AI, Socket.io, TanStack Query, Recharts, Framer Motion, Tailwind CSS

ProductHub: Product Management

[Live link](#) | [Github](#)

Overview: A full-stack web application for managing products with secure role-based access and CRUD operations. Includes features like product listing, category management with a responsive UI.

- Secure employee management and role-based access-control.
- Provides RESTful API endpoints for efficient data operations.
- Uses MongoDB for scalable and structured data storage.

Technologies: JavaScript, Next.js, Tailwind CSS, ShadCn Ui, Framer-Motion, OAuth, MongoDB

Education

Diploma in Computer Engineering – Bangladesh Polytechnic Institute (2021-2024)

CERTIFICATION

[Web Development Certificate](#) – (July 2024 - January 2025)

Language

- Bangla (Native)
- English (Intermediate)
